Congressman Halleck also stated that Congressman Powell is moving his committee very rapidly insofar as the minimum wage bill is concerned.

Congressman Brown expressed the opinion that the House will pass a bill on this subject this year.

Senator Dirksen stated that Senator Mansfield had set a target date of July 31 for adjournment and insofar as he could see an effort was being made to rush not only the hearings on this bill but speed up all legislation. He expressed the hope that the House can pass a bill similar in principal to the old Senate bill.

Congressman Hoeven stated that the feed grains bill would be reported out of the subcommittee today and that legislation to extend the sugar act would be speedily enacted. The extension would be for 21 months and included would be the Eisenhower provision in regard to quotas for the Dominican Republic.

Congressman Hoeven spoke at some length on the provisions of the feed grains bill and stated that while he had some doubts about it, he was willing to give the farmer the benefit of the doubt. Its aim was to raise farm income and at the same time appeal to the tax payers with a net savings of \$500 million.

Senator Dirksen stated that in his opinion wheat must be included in any legislation and the total agriculture situation worried him, particularly insofar as next year is concerned. The Senator read a prepared statement on the general subject of agriculture but it was agreed that all comments would be reserved at this time.

It was agreed that when desired the meeting should invite House and Senate senior members of the various committees when there was up for consideration a particular piece of legislation. After discussion it was thought it would be best to limit the appearances to the senior member of the Committee or some other member of that committee if the senior member invited him to appear.

In response to a question of Congressman Halleck in regard to the committee staff, Senator Dirksen stated he had suggested another name to the Presiding Officer and that in all probability Senator Morton would report to the group next week.

Senator Dirksen asked what the House was doing in regard to the school bill. It was the opinion of all that the Administration bill had not been introduced. Senator Dirksen stated that at the present time there are five individual bills pending before the Senate Labor and Welfare Committee. Senator Dirksen read a general statement on the subject and it was decided that it would be best not to take a position at this time.

The subject of distressed areas was briefly discussed and it was decided to await further committee action before a statement might be made.

Senator Kuchel asked if any information was available in regard to P.L. 478 on migrant labor which expires June 30. Congressman Halleck stated that he had heard nothing on the subject.

Senator Dirksen stated that he had talked with Arthur Flemming in general concerning the school bill, Flemming stated to him that the college recommendations were very bad. It was thought best for him not to appear before the committee but it was suggested that Bryce Harlow contact

We support the proposal to temporarily extend the Unemployment Compensation Benefit program.

We are concerned about the plight of those unemployed who have exhausted their Unemployment Compensation benefits and we believe that steps must be taken promptly to provide additional relief.

Conditions which have developed since last November call for enactment of a temporary program to extend Unemployment Compensation benefits to exhaustees.

We believe that the cost of this program should be defrayed by a temporary increase in the Federal unemployment tax rate sufficient to repay advances by the Federal Treasury in as short a time as is reasonably possible.

This method of financing the program was supported by the administrators of State Unemployment Compensation systems before the Ways and Means Committee.

This program should be enacted and put into effect as quickly as possible. We trust the majority party will avoid including in such legislation areas of possible controversy in order that prompt enactment may be assured.
